First Author: Activity Title:

Content Rubric: Application Activity

Content Learning Objectives	0	1	2	3	Identify at least one strength related to the content learning objectives. Explain why it is a strength.	Identify at least one improvement related to the content learning objectives. Explain why this would be an improvement.
1a. No more than three key concepts as learning objectives are stated clearly and phrased appropriately on Activity Submission Form.	☐	☐	☐	☐		
1b. Activity is likely to lead students to achieve the content learning objectives.	☐	☐	☐	☐		
1c. Questions in activity allow assessment of student achievement of content learning objectives.	☐	☐	☐	☐		
Content Accuracy	0	1	2	3	Identify at least one strength related to the content accuracy. Explain why it is a strength.	Identify at least one improvement related to the content accuracy. Explain why this would be an improvement.
2a. Models and questions lead students to accurate content understanding.	☐	☐	☐	☐		
2b. Models and questions help students to avoid or explicitly confront common misconceptions.	☐	☐	☐	☐		
Application Activity Structure	0	1	2	3	Identify at least one strength related to the application activity structure. Explain why it is a strength.	Identify at least one improvement related to the application activity structure. Explain why this would be an improvement.
3a. Each model is clearly presented and is an appropriate set of data or exemplars that provides enough evidence or information to achieve intended content objectives.	☐	☐	☐	☐		
3b. Exploration questions require students to engage with the model.	☐	☐	☐	☐		
3c. Questions are sequenced to build toward targeted learning objectives.	☐	☐	☐	☐		
3d. Applications of key concepts are present and further strengthen understanding in a meaningful and logical manner.	☐	☐	☐	☐		
Diversity and Inclusion	0	1	2	3	Identify at least one strength related to diversity and inclusion. Explain why it is a strength.	Identify at least one improvement related to diversity and inclusion. Explain why this would be an improvement.
4a. Models minimize barriers to learning by choosing language and graphics that are audience appropriate and accessible to diverse student populations.	☐	☐	☐	☐		
4b. Questions minimize barriers to learning by choosing language that is audience appropriate and accessible to diverse student populations.	☐	☐	☐	☐		
Clarity and Flow	0	1	2	3	Identify at least one strength related to clarity and flow. Explain why it is a strength.	Identify at least one improvement related to clarity and flow. Explain why this would be an improvement.
5a. Questions are phrased clearly and are likely to elicit the intended response from students.	☐	☐	☐	☐		
5b. Sequence of questions flows logically and avoids conceptual leaps, unnecessary repetition, or content unrelated to learning objectives.	☐	☐	☐	☐		

Assessment Key:

0 = No explicit evidence regarding this indicator.
1 = Some evidence of meeting this goal, but significant improvement needed.
2 = Satisfactory evidence of meeting this goal, but improvements would substantially improve the activity.
3 = Substantial or exemplary evidence of meeting this goal. Improvements are not essential.
